

Butler County Youth Services Center

Serving Butler County Middle School and Butler County High School

The Youth Services Center (YSC) has offices and staff at BCMS & BCHS. The program is designed to remove barriers that keep students from being successful. At BCHS, we are now inside the building and out of our mobile unit. Students can find us down the Ag/FFA hall!
At BCMS our office will be unchanged and still near the front doors.

The YSC links students and families with other community agencies and is actively involved with programs promoting healthy lifestyles, including drug, alcohol, and tobacco prevention. The YSC coordinates programs such as: College Day, Career Day, Reality Store, Happy Feet, student health fairs, and much more. The center assists families with basic needs and health services. Support groups sponsored by the YSC include the Grandparents Raising Grandchildren, and the Teen Parent Support Group.

Many community members and agencies donate their time and funds to these activities and, without their assistance and help from volunteers, many of these projects would not be possible. In addition, many of these programs are held jointly with other agencies.

We are excited for a new school year! Working with students, families and the community will remain our priority. Please contact us if you have any questions.
